

SRUJAN CHIDARLA

Baltimore, MD · srujanchidarla.uof@gmail.com · [linkedin.com/in/srujan-chidarla](https://www.linkedin.com/in/srujan-chidarla) · github.com/srujanchidarla · srujanchidarla.com

PROFESSIONAL SUMMARY

Backend-focused software engineer with 2+ years of production experience building and operating Java/Spring Boot microservices at **2M+ requests/day** and **99.9% uptime**. Strong in REST API design, database optimization, distributed systems fundamentals, and CI/CD. MS in Computer Science (**4.0 GPA**, Aug 2026). Shipped production backends for **JobHuntOS** (Chrome Web Store), **CampfireChai** (live), and **AlgoChronicle**. Authorized to work in the U.S. via **STEM OPT** (36 months; no immediate H-1B sponsorship required).

TECHNICAL SKILLS

Languages: Java, Python, JavaScript/TypeScript, SQL

Backend & APIs: Spring Boot, Node.js, Express.js, FastAPI, REST API design, microservices, event-driven workflows

Databases: MySQL, PostgreSQL, MongoDB, Firebase/Firestore; schema design, indexing, query optimization

Cloud & DevOps: AWS, Docker, CI/CD (GitHub Actions, Azure DevOps), Vercel/Railway deployment

Systems: Distributed systems, load balancing, failover, caching concepts, real-time systems (Socket.io), observability (logging, monitoring)

Tools: Git, Postman, Linux, Agile/Scrum

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions · Software Engineer — Backend / Microservices

Hyderabad, India · Mar 2021 – Apr 2024 (Full-time, 2 yrs 7 mos)

Programmer Analyst (Full Stack), Nov 2022 – Apr 2024 · Program Analyst Trainee, Oct 2021 – Oct 2022

- Contributed to Spring Boot microservices processing **2M+ daily requests** with **99.9% uptime** for **500+ enterprise users**
- Optimized a bottleneck database query, reducing **P99 latency from 250ms to 50ms** on a high-traffic service path
- Built and maintained service-oriented APIs using MVC and microservices patterns for scalability and maintainability
- Integrated Azure DevOps APIs to sync sprint data across platforms, improving team productivity by **20%**
- Supported Docker-based deployments and CI/CD workflows across dev, staging, and production environments
- Collaborated with senior engineers on system design, code reviews, and production reliability practices

Technologies: Java, Spring Boot, MySQL, Angular, AWS, Docker, Azure DevOps, REST APIs

WalletGyde · Backend-Focused Full-Stack Developer (Internship)

Denver, CO (Remote) · Dec 2024 – May 2025

- Built backend services with Next.js API routes and Supabase (PostgreSQL) for a fintech web platform
- Improved transaction processing speed by **40%** through schema optimization, indexing, and query tuning
- Designed RESTful APIs with authentication and validation for sensitive financial workflows
- Raised mobile Lighthouse performance scores by **30%** through API and frontend optimization

Technologies: Node.js, Next.js, PostgreSQL, Supabase, REST APIs, Tailwind CSS

University of Fairfax · MS Computer Science (Coursework & Projects)

Fairfax, VA · Aug 2024 – Aug 2026 (Expected)

- Maintaining **4.0/4.0 GPA** while shipping production side projects and completing graduate coursework
 - Coursework depth: computer networks (TCP/IP, BGP/OSPF), system design, distributed systems, AI/ML integration
 - Applied production lessons from Cognizant to personal backend systems (Neocortex, JobHuntOS, AlgoChronicle)
-

SELECTED PROJECTS — BACKEND FOCUS

JobHuntOS · Production Backend — Live on Chrome Web Store

job-hunt-os-eosin.vercel.app · [Chrome Web Store](#)

- Built Node.js/Express API for job analysis across **100+ ATS/job-board formats** with resilient error handling
- Implemented **SSE streaming** for real-time LLM responses with connection lifecycle management
- Designed multi-provider LLM routing (Claude/Gemini/Groq) with failover, cost-aware provider selection, and graceful degradation
- Built PDF/DOCX resume generation pipeline with storage integration; deployed on Railway with production logging

Stack: Node.js, Express, SSE, REST APIs, LLM orchestration, Railway

CampfireChai · Real-Time Backend — Live on Vercel

campfire-chai.vercel.app · [GitHub](#)

- Developed Express 5 + MongoDB backend for trip coordination across **15+ US metro hubs**
- Implemented Socket.io real-time messaging, connection handling, and shared logistics state
- Designed MongoDB schemas for trips, users, permits, and carpools; optimized geo-based search queries
- Enforced JWT auth, input validation, and API reliability patterns for production usage

Stack: Node.js, Express, MongoDB, Socket.io, REST APIs

AlgoChronicle · Event-Driven Publishing Pipeline — Live on Vercel

algochronicle.vercel.app · [GitHub](#)

- Engineered GitHub Actions → Next.js API → Firestore pipeline for zero-manual publishing after git push
- Parsed structured README metadata into streak stats, platform breakdowns, and RSS feed generation
- Designed Firestore data model for contributions, streaks, and analytics aggregation

Stack: Next.js, TypeScript, Firebase/Firestore, GitHub Actions, REST APIs

StudyGlobal · EdTech API Platform — Live Beta

studyglobalscholar.netlify.app

- Built backend workflows for international student visa, housing, and relocation journeys
- Integrated third-party cost-of-living and university APIs into PostgreSQL-backed dashboards

Stack: Next.js, TypeScript, PostgreSQL, REST API integration

Neocortex · Multi-Agent Backend (In Development)

github.com/srujanchidarla/neocortex

- Architecting FastAPI backend with 15 domain agents, SQLite persistence, and 6-provider LLM failover chain
- Designing event-driven agent coordination, task scheduling, and failure recovery patterns

Stack: Python, FastAPI, SQLite, distributed orchestration, LLM routing

EDUCATION

University of Fairfax · Master of Science in Computer Science

Aug 2024 – Aug 2026 (Expected) · **GPA: 4.0/4.0** · Fairfax, VA

VNR Vignana Jyothi Institute of Engineering & Technology (VNR VJIED) · B.Tech, Information Technology

Aug 2018 – Aug 2021 · **GPA: 3.8/4.0** · Graduated with Honors · Hyderabad, India

CERTIFICATIONS

- **AWS Cloud Practitioner** (May 2026) — [linkedin.com/in/srujan-chidarla](https://www.linkedin.com/in/srujan-chidarla)
 - **Google UX Design Professional Certificate** (Feb 2026) — [Coursera](https://www.coursera.org/certificate)
 - **Generative AI Fundamentals**, Databricks (Jan 2026)
 - **Prompt Engineering**, LinkedIn Learning (Mar 2026) — [Certificate](#)
 - **Learning Next.js**, LinkedIn Learning (Feb 2025)
 - **HackerRank Problem Solving (Basic)** (2024) — hackerrank.com/certificates/B5F731D6723F
 - **Modern Java, MySQL, React.js, Angular, Git** — Udemy (2022)
-

ADDITIONAL

- **GitHub**: 41 repositories, 303+ contributions/year, Pull Shark — github.com/srujanchidarla
 - **Google Local Guide Level 9**: 10k+ contributions, 52k+ points, 58M+ views
 - Multi-sport athlete; state-level medals — discipline under performance pressure
